`\=` – resize taller
`_` – resize thinner
`\+` – resize wider

Lexical

`\s` – normal mode spelling fixes
`\S` – normal mode synonyms (thesaurus)
`<C-X><C-S>` – insert mode spelling fixes
`<C-X><C-T>` – insert mode thesaurus

Git (fugitive)

```
\Gs - git status  
\Ga - git add --all  
\Gc - git commit  
\Gpl - git pull  
\GPL - git pull --all  
\Gps - git push  
\GPS - git push --all  
\Gf - git fetch  
\GF - git fetch --all  
\GS - git stash save
```

Vimtex (LaTeX integration)

```
:VimtexCompile - start compiler in continuous mode  
:Vimtex~ - prefix for Vimtex commands
```

Miscellaneous

```
\o - show outline (tags)  
<C-N> - toggle Nerd Tree
```
